

Smithsonian Garden Secrets

4 x 30'

EPISODIC BREAKDOWN

1. Smithsonian Garden Secrets 1

In this episode, Smithsonian experts help an urban rooftop gardener who needs guidance on cool weather plants, and a container gardener who is being overrun by whiteflies and slugs. In the end, the featured home gardeners transform their urban gardens into their own masterpieces.

2. Smithsonian Garden Secrets 2

In this episode, Smithsonian experts help several home gardeners who need help managing their flower gardens. In the end, the featured home gardeners transform their flower gardens into their own masterpieces.

3. Garden Secrets: Victory Veggies

In this episode of Garden Secrets, we go behind the scenes at the Smithsonian to explore the rich history of two of their most storied gardens. First, we visit the Smithsonian's re-creation of an authentic World War II Victory Garden. Then, we go back in time to learn the ancient Native American technique used in planting the traditional Three Sister crops: corn, beans, and squash.

4. Garden Secrets Pollinator Power

In every garden, a vital drama unfolds each morning. It's the amazing interaction between plants and pollinators in our own backyards, that helps feed the world. Without pollinating species like birds, bees, and butterflies, more than three-quarters of the food plants we eat – and the flowers we enjoy – wouldn't exist.
