## Risky Business

6 x 30'

EPISODIC BREAKDOWN

### 1. Episode 001

Cosmo and Lulu have put their homes and their relationship on the line to turn a derelict 1970s tax office into a designer hotel. To save money, they have decided to project-manage the entire £5 million development themselves. Never having done anything like it before, it's a decision they are coming to regret.

### 2. Episode 002

Cosmo and Lulu's dream hotel is now a month late and, with £5 million pounds on the line, they're trying to avoid their investors' awkward questions. With both their homes at risk if the business fails, the pressure is on to open a hotel which still looks like a building site.

### 3. Episode 003

Today is opening day, but Cosmo and Lulu have been forced to open their dream hotel half-finished. In the race to finish enough rooms, tempers are stretched to breaking point: and with no sign on the front of the former tax office, will their desperately-needed first customers be able to find the hotel.

### 4. Episode 004

After a twelve-month nightmare, the Big Sleep hotel is finally open, but Cosmo and Lulu are now faced with an even bigger challenge, finding enough guests to fill the 62 bedrooms. And with a staffing crisis to deal with, the official opening ceremony looks unlikely to end without more arguments.

### 5. Episode 005

Financial problems at the hotel mean Cosmo and Lulu advertise for a general manager to try and bring in some badly needed bookings for the struggling £5 million project. Meanwhile the housekeeping department is in chaos and the new head housekeeper walks out on her first day.

## **6. Episode 006**

Last in series. As morale begins to drop due to lack of bookings, Cosmo and Lulu have to fire a housekeeper, and Cosmo goes back to the bank. With both Cosmo and Lulu's homes riding on the success of the business, can new manager Barry help to save the £5 million project from failure.
