

Blowdown (Series 1)

4 x 60'

EPISODIC BREAKDOWN

1. Sellafield Nuclear Plant

A family demolition team from Phoenix Maryland descends on site of the Sellafield Nuclear plant to take down four outdated nuclear cooling towers. It will be the first time explosives have ever been used on an active nuclear site anywhere in the United Kingdom. The team has ten days to load and rig 4,500 dynamite charges in the towers, one of which is only 40m away from a nuclear fuel processing plant. The team is set to make history, but are worried about the fallout.

2. Vegas Casino

A family demolition team from Phoenix Maryland descends on site of the Sellafield Nuclear plant to take down four outdated nuclear cooling towers. It will be the first time explosives have ever been used on an active nuclear site anywhere in the United Kingdom. The team has ten days to load and rig 4,500 dynamite charges in the towers, one of which is only 40m away from a nuclear fuel processing plant. The team is set to make history, but are worried about the fallout.

3. Miami Resort

A family demolition team from Phoenix Maryland descends on Bal Harbour in Miami Beach Florida to take down an outdated resort complex. Neighboring multi-million dollar condo buildings sit just 18 feet away. The team has ten days to load and rig dynamite and highly specialized, high speed explosives capable of cutting steel. They struggle to keep every ounce of explosive energy from impacting the buildings and people that surround the demolition site.

4. Rocket Tower

A family demolition team from Phoenix Maryland descends on Cape Canaveral, Florida to take down an obsolete rocket launch tower. The team has one month to load and rig highly specialized, high-speed explosives capable of cutting steel. They struggle to keep the job on schedule and the team safe on this industrial demolition site.
