EPISODIC BREAKDOWN

1. Needy and Greedy

It takes patience and commitment for The Rhino Orphanage, as they nurture young rhinos whose mothers have been lost to poaching. New calf Nandi dishes out bumps and bruises, while Thula needs intensive medical care. Will the team be able to save the rhino's sight?

2. Return to the Wild

The two oldest rhinos are set to be released back into the wild. Three rhinos cause a stir as they go missing, while the younger rhinos make steady progress toward health and happiness. A new volunteer arrives in time to see the release, but will it end in disaster?

3. New Arrivals

The poaching crisis intensifies and poachers turn their attention to orphanages. After losing her mother, four-week-old Jamila finally finds sanctuary at The Rhino Orphanage. She's not the only newby as Nox the bushbaby, and new volunteers are around to keep her company.
