4. The Hidden Kingdom

1. Kamchatka: Ring of Fire

Kamchatka, a remote haven for wildlife in far eastern Russia. Here animals tread a fine line between survival and succumbing to the deep freeze in this pristine wilderness.

2. East of Eden

Russia's Lake Baikal, and the Eastern delta on the Caspian Sea are a treasure trove for biodiversity, and strange enigmatic creatures. It's here that Russia's deepest secrets are revealed.

3. Siberia's Frozen Heart

Siberia, a desolate and frozen world, battling temperatures of -80°F during winter, its short summers bring heat up to 104°F. But these extremes in temperature are no barrier to wildlife.

4. The Hidden Kingdom

In far Eastern Russia, mountainous boreal taiga in the north meets temperate rainforests in the south. Here species find their last refuge in a wild place like no other.
