Air Warriors (Series 8)

4 x 60'

EPISODIC BREAKDOWN

1. Top Choppers

Helicopters are on the front lines of America's toughest missions. In Air Warriors: Top Choppers, ride along in the deadly Apache and the lifesaving Black Hawk. See the power behind the Chinook and the tech inside the innovative Osprey.

2. Top Dogfighters

They're the top guns of air-to-air combat: Dogfighters. In these battles, a split-second decision determines life or death. Get the inside story on dogfighting from some of the military's foremost fighter pilots, men who went to war in the F-15 Eagle, the F-4 Phantom, the F6F Hellcat, and the P38 Lightning. These veterans looked death in the face -- and won.

3. Top Gunships

AIR WARRIORS: TOP GUNSHIPS: When troops are in trouble, they call for these guardian angels -- Close Air Support aircraft. In Iraq and Afghanistan, these planes protect soldiers on the front lines. Watch the A-10 Thunderbolt, the AC-130, the F-16, the Harrier, and the B-52 battle enemies and protect the allies with the most powerful weaponry in the world.

4. F-18 (Top Super Jets)

AIR WARRIORS F-18 gets up close and personal with America's first strike fighter -- the legendary F-18. Today, the F/A-18 Super Hornet is the backbone of the United States Navy. But those jets have their roots in the F-18 Hornet. Developed in the 1980s, this lethal jet was designed to pack a one-two punch -- as a fighter and an attack aircraft. We fly along with F-18 Hornet fighter pilots in conflicts worldwide as they take out everything from bunkers to bad guys.
