Born In The Rockies

2x60'

EPISODIC BREAKDOWN

1. First Steps

In episode one we introduce the vast diversity of the Rockies through the eyes of our animal families. From early spring to late summer we follow our new mothers through the early days of raising a family.

2. Growing Up

In episode two we re-join some of our animal families and meet new ones, as we move through all four seasons of the Rockies. Our crane family takes us south across the Rockies as autumn unfolds in a riot of yellow and gold. Each of our families is busy preparing for a long hard winter by taking advantage of what greens remain.
