

## Becoming Human

### EPISODIC BREAKDOWN

#### 1. Artificial Love

Enlai explores if we can truly love artificial intelligence, and teach it to love us back. He meets impassioned love robots and chatbots trained on memories of people, living and dead.

#### 2. Unnatural Genius

Enlai explores how natural intelligence inspires artificial intelligence. He meets A.I. that is trained to think like artists, musicians, doctors and scientists, and he learns how A.I. can outsmart us.

#### 3. Coding Morality

Should a machine know right from wrong? Enlai explores how law, ethics and spirituality shapes artificial intelligence.

#### 4. Real Power

Who will have real power over artificial intelligence? Chua Enlai examines the pursuit of A.I. in America, China, Sweden and Singapore.
